

# Family Safe Online Treaty

For under 10s

It's important that everyone can have a good time using the internet and devices. Our family agrees to these steps to help make things safer for us all. We agree to:

## 1 BE KIND.

When we are online, we will think about others and talk or share in a kind way. We will treat people how we would like to be treated even if they aren't behaving nicely.

## 2 BE PRIVATE.

We will keep our passwords and information about ourselves and other people safe and private. If we are not sure if something is safe to share, we will check with an adult first.

## 3 BE CAREFUL.

We will think carefully about what we do online and make sure it's something we are proud of and would be happy saying to someone's face.

## 4 BE A THINKER.

We will remember that not everything we see online is real. It might look or sound like it is, but some things are made up or fake. We will check or ask an adult if we're not sure.

## 5 BE HONEST.

When we copy or use words, pictures and ideas from the internet, we will explain where it has come from.

## 6 BE FAIR.

We will always ask if it's okay to record someone else and won't share anything about other people including videos and photos without checking with them if it's alright.

## 7 BE RESPONSIBLE.

We know that we need to make sensible and smart choices when we are online. Our behaviour can help to make other people's time online better.

## 8 BE OPEN.

We will use our devices in shared spaces and if we don't feel safe or get sad when we are online, we will speak to an adult straight away.
