

Digital citizen scenarios

Overview

This document gives examples of situations involving made-up young people and how the Digital Assessment tool has been used in these cases.

Persona 1: Jim

Age:	20
Background:	<ul style="list-style-type: none"> • Jim has an intellectual disability, which makes him unaware of risks. • He used to live with his parents before moving into residential care. • He went to a special needs school. • When he lived at home, he had unrestricted access to digital technology. • In the past, he got into dangerous situations using technology, even involving the police.
Interests:	<ul style="list-style-type: none"> • Jim is very social and enjoys spending time with friends outside. • He likes being with his family. • He enjoys watching Netflix. • He also likes staying in touch with friends through Snapchat and Instagram
Digital Competency:	<ul style="list-style-type: none"> • Jim is very skilled in using all kinds of digital devices and platforms. • He depends on social media to stay connected with his friends.
Digital Challenges:	<ul style="list-style-type: none"> • Jim can figure out ways to work around any safety measures that are set up for him. • He doesn't realize the dangers linked to his online actions. • There were no safety precautions in his family home before.
Digital Assessment example:	<ul style="list-style-type: none"> • Support needs: Emerging • Values and Attitudes: Pre emerging • Cyber safety aware: Pre emerging • Digital literacy: Engaging • Digitally fluent: Emerging

		Digital Citizens - "How am I doing?"			
		My journey to being someone that uses technology in a way that is safe, empowering and supports my wellbeing – i.e. a successful			
Measures	GOAL	Introducing	Emerging	Engaging	Extending
1.SUPPORT/SAFEGUARD NEEDS	I am supported so I can use technology in a way that is safe and supports my wellbeing	My support needs have not been identified For example: - I might not use technology at all. - I might not have any limitations on how I use technology. - My technology use might not match my age or stage in life. - My technology use could be harming my well-being	There are measures in position to keep me safe and well when using technology - I know why these are necessary, but I might find it challenging to adapt to them. - I receive assistance to set goals for using digital technology in a healthy way	Supports and safeguards are starting to be reduced as I understand safe use of technology	<ul style="list-style-type: none"> I am able to use technology that is safe I may need some support/safeguards if support this
2.VALUES and ATTITUDES	I use technology in a way that helps me stay true to myself, maintain my relationships, and achieve positive life outcomes	<ul style="list-style-type: none"> I know how to be "safe," but I might not realize how it applies to the online or digital world In my everyday life, I sometimes make choices that are not safe For example I make decisions that risk my personal safety and wellbeing 	<ul style="list-style-type: none"> I am beginning to understand the connection between how I act in real life and how I am in my digital life I may need support sometimes to ensure I am safe 	<ul style="list-style-type: none"> My self worth/value is increasing I am beginning to understand the connection between what I do online and who I am in "real" life 	<ul style="list-style-type: none"> I know my self value/well-being I have personal integrity I reflect this in all aspects including online I may make mistakes as this as I am embarrassed
3.CYBER SAFETY AWARE	I know what using digital technology safely looks like. I know what to do if I don't feel safe	<ul style="list-style-type: none"> I have little/no awareness of what cyber safety is I take everything online at "face value" For example I believe everything I read online I overshare with online "friends" 	<ul style="list-style-type: none"> I am starting to understand the concepts of cyber safety I know there are risks with using digital technology: I may need help to identify what these are 	<ul style="list-style-type: none"> I know about cyber safety I may need support sometimes to ensure I am safe I can sometimes make decisions that pose a risk to my cyber safety I know I can ask for help 	<ul style="list-style-type: none"> I understand what safe technology looks like I know people make mistakes I know what to do if I do it online
4.DIGITALLY LITERATE	I have the skills and strategies I need, to use digital technology in a way that enhances my life	<ul style="list-style-type: none"> Digital technology is not used at all 	<ul style="list-style-type: none"> I see how technology may be able to help enhance my life I need help to access technology For example: I use a smart phone I may have a laptop but I need help logging in and access online platforms 	<ul style="list-style-type: none"> I know what digital literacy is I use digital technology in a way that enhances my life I may need support sometimes to ensure I am safe 	<ul style="list-style-type: none"> I can communicate with friends online I keep my passwords safe I know why this is important I can access digital technology like, either on my own
5.DIGITALLY FLUENT	I am a thriving digital citizen who is digitally empowered. I know which technology to use to achieve the desired outcome	<ul style="list-style-type: none"> I use technology I am digitally literate I do not know what a digital citizen is 	<ul style="list-style-type: none"> I use technology daily I am being introduced to the concept of digital citizenship 	<ul style="list-style-type: none"> I understand connection between my technology use and digital citizenship I am beginning to know HOW to use technology and WHEN to use it for a certain outcome I am starting to be digitally empowered I may need support sometimes to ensure I am safe 	<ul style="list-style-type: none"> I know HOW to use technology I know WHEN to use it for a certain outcome I use technology effectively I understand that technology can support my needs

Next steps:

Based on the above assessment, Jim's support team has worked with him to:

- Understand he needs supports in place to help keep him safe (using Trend Micro)
- Has a plan to work with Jim on understanding his self-worth in an online environment – working with a counsellor
- Has found a cyber safety course that suits Jim's need and pace of learning
- Ensure they support Jim with any online use, celebrating any successes, and empowering him to share when he is worried

Persona 2: Edna

Age:	21
Background:	<ul style="list-style-type: none"> • Edna as a mild intellectual disability • She works part-time at a supermarket. • She hasn't received a full education in mainstream schools.
Interests:	<ul style="list-style-type: none"> • All about friends • Going to the mall • Meeting and making new friends – these are often online "friends" some of whom may take advantage of her easy trusting nature
Digital Competency:	<ul style="list-style-type: none"> • Highly competent

	<ul style="list-style-type: none"> Spends 8-12 hours online a day 																																										
Digital Challenges:	<ul style="list-style-type: none"> Has previously been scammed out of money via online "friends" 																																										
Digital Assessment example:	<ul style="list-style-type: none"> Support needs: Extending Values and Attitudes: Engaging Cyber safety aware: Extending Digital literacy: Engaging Digitally fluent: Engaging 																																										
	<p style="text-align: center;">Digital Citizens - "How am I doing?" My journey to being someone that uses technology in a way that is safe, empowering and supports my wellbeing - i.e. a successful digital citizen.</p> <table border="1"> <thead> <tr> <th>Measures</th> <th>GOAL</th> <th>Introducing</th> <th>Emerging</th> <th>Engaging</th> <th>Extending</th> <th>Empowering</th> </tr> </thead> <tbody> <tr> <td>1.
